EmVista Extended Edition

EmVista Extended Edition is a COTS solution for emergency/security/information environments with potentially significant call volume. An EmVista Extended installation supports multiple attendants on any combination of workstations and EmVista Satellite Stations in disparate locations and controls networks interconnecting a collection of up to 300 Emcom and Emcom-approved VoIP devices. All audio through EmVista is recorded.

Features

- Endpoints: Emcom and Emcom-approved VoIP products; PSTN (with approved gateway)
- Video: Emcom and third-party systems (Genetec)
- Audio Services: Call and conference Management, recording playback and export, server failover
- Administrative Services: endpoint programming and testing, diagnostics and fault detection, reports, PACT (SMS, email, phone call)
- Database Redundancy: master/backup
