

Emcom Master Station

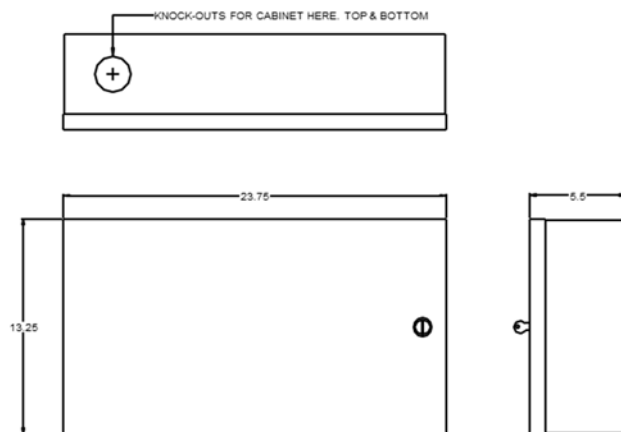

The Emcom Master Station is a state of the art VoIP area of refuge/two-way communications system, containing all software needed to route and answer calls. Every Emcom Master Station comes with a Fault Detection and Notification System, which displays the status of a faulty device within 200 seconds. The Emcom Master Station provides call timers, allowing an unanswered call to be forwarded to a constantly attended location, with caller ID. Available on a desktop or as a surface mount, the Emcom Master Station can be paired with any Emcom ADA compliant phone.

Advantages

- Fault Detection and Notification System
- Full Duplex
- Connect multiple Emcom Master Stations
- Connect up to 75 IP endpoints
- Windows OS
- Call Recording
- Paging Feature
- Call Routing
