

SA1010 - Audio Interface Box

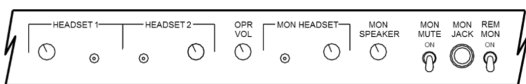

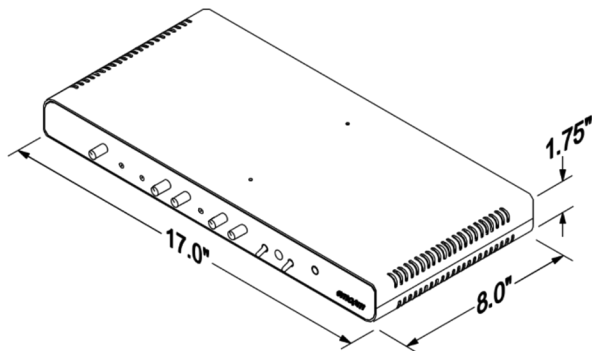

The SA1010 audio interface box provides a connection point for all agent audio inputs and outputs at an EmVista Agent station and connects these various audio devices to the workstation and to the audio bus of a communications system. The interface box may be placed on a desk or mounted under the desk using the included mounting brackets.

Advantages

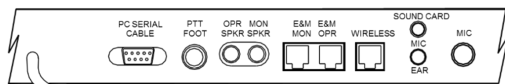

- 2 Headset/Handset Jacks with Volume Control
- Wireless Headset Jack
- Operate and Monitor Speaker Jacks with Volume Control
- Dynamic Desk Mic
- Push to talk Inputs
- Remote Monitor Speaker Out
- Automatic Volume Control on All Paths
